

Voraphol Luangmai-eam

Geologist/Junior Data analyst

An aspiring Data Analyst with a background in Geology, equipped with strong skills in data analysis, data cleaning, and visualization using tools like SQL, R, and Tableau. Experienced in interpreting geological and hydrological data with GIS and leading field projects. Looking for opportunities to apply my analytical skills in a data-driven environment.

SKILLS

Soft skill : Data analysis, Data cleaning, Problem-solving, Analytic thinking, Collaboration, Adaptation

Technical skill : Tools : Excel, Google sheet Programing language : Basic Python SQL and R
Data Visualization : Tableau

EXPERIENCE

Right Tunnelling Co,LTD Xekong 4A&4B Laos

Geologist/Site Engineer June 2019 - October 2020

- Exploration Drilling
Likely measurement, collecting data and analyze into geological data and interpret.
- Analytic thinking
Experience in geology can make identify patterns, trend and relationship with data to evaluated strength and weak of geology in working area.
- Problem solving
Solve problem with team member, working machine and adjust to fit in each situation.
- Management
Lead team to run working on schedule project.

Department of Ground water resources

Geologist April 2022 – Recent (Full -Time)

- Ground water exploration
Analysis data from study area and interpret data by specific program.
- Data collecting and Report
Collecting big data from another project use spreadsheet to find a trend or sort important data
- Create mapping or interpret field data
Visualization by GIS programing for create Topographic, Geology, and Hydrology map for use to support field data and specific program for find a trend of pattern to interpret them.

Data Wow

Data Annotator/ Data Lebelling January 2025- Recent (Part -Time)

- Examine the intricate relationships within sentences to optimize AI training and improve performance analysis data from study area and interpret data by specific program.
- Discover the importance of sentence similarity, where slight wording changes still convey the same meaning. By applying common sense and critical thinking, train AI to understand language nuances, enhancing communication and interactions.

EDUCATION

KhonKean University - *Bachelor Degree of Geotechnology*

August 2016 - July 2019

Certificate

Google Data Analytics Certificated, Chula Data Management with SQL
